Through The Years

The day each and every one of us were born into this world, we were brought in for a reason. That reason may differ among us. For this last year as one last class, let us believe the reason is for us to be the class of 1995 at Voc-Tech. It's hard to say why this has been the best years of our lives but as far as we know it has been and always shall be. Four years ago, every one of us walked in through the main doors alone. Not knowing what to expect. Three years later, we've had many good times, many bad times, made new friends and sadly enough lost some old ones. Here, now in the present we stand together, united as one class. We are all equal. The journey of life is about to begin. For the outcome is unknown and although the road to riches may be long and hard. We the class of 1995 is going to make it through the years.

God Bless,
